WORK EXPERIENCE

Full-Stack Developer & Product Owner Fedel App

08/2022 - Present

Baia Mare, Romania

Fedel is a digital loyalty platform that helps small businesses replace paper loyalty cards with an easy, affordable solution.

Achievements

- Designed and implemented **frontend and backend systems**, optimizing performance with efficient **caching** and database management.
- Integrated **Stripe** for payments and **AWS services** (S3, CloudFront, EventBridge) to enhance scalability and security.
- Built and maintained **CI/CD pipelines**, ensuring faster, reliable deployments and high-quality code.
- Helped **small businesses** leverage the app to gain valuable insights into their **customers**.

Industry: Retail, FinTech

Senior Frontend Developer Insomniac Design

06/2023 - 02/2025

Washington D.C. (Remote)

Achievements

- Built a **CO2 footprint visualization platform** for corporate sustainability insights.
- Collaborated closely with back-end developers to **integrate RESTful API** endpoints into frontend architecture seamlessly.
- Implemented and optimized **D3.js hierarchical visualizations**, enhancing performance and data interaction.
- Developed **reusable UI components** for dynamic form generation from JSON schemas.
- Managed multiple projects simultaneously, **adapting to shifting priorities** under tight deadlines.

Industry: Environmental & Sustainability

Frontend Developer WebScrapingAPI

03/2020 - 05/2023

Cluj-Napoca, Romania

Achievements

- Implemented **responsive designs** for seamless experiences across all devices and browsers.
- Integrated **third-party APIs and services** to enhance functionality and engagement.
- Built and maintained **CI/CD pipelines**, improving deployment speed and reliability.
- Optimized performance** for better efficiency and SEO through minification, caching, and asset optimization.
